Author: Sean E Avery

Unit writer: Karen Rogers

Text synopsis: A story about never giving up on your talents, because even though what you do may not be appreciated right now, it may be in time. Possibly by someone you'd least expect. Frank is a penguin with ideas. Mostly terrible ones. That's why his fellow penguins are nervous when he shows them his strange new creation. Something they'd never seen or expected to see in their cold and colourless Antarctic world – a red hat.

Rationale: In this unit students will interpret written and visual information and make connections between texts and personal experiences. They will draw and explain inferences using background knowledge as well as language and visual text features. Students will explore personal identity and belonging through the experiences of the characters in the text. They will use this learning to create

a wearable item that expresses their own individuality as well as a written text that draws on their learning about the way that language and images can be used to connect to the reader.

Cross-curriculum links: Science; The Arts (Drama); Health & PE; Personal and social capability

English concepts: Character; Context; Point of view

Overarching questions:

1. How can point of view be represented?
2. How do character dialogue, actions and language help to convey a point of view?
3. How can understanding character experiences and context help us to understand ourselves and others?

Rich assessment task: Invite students to create their own item of clothing or accessory that meets a need and expresses their individuality. The item may be represented visually as an illustration or can be created using available materials in the classroom. Ask students to create an advertisement for their created item, using a format of their choice. Support students to make decisions about the best audience to market their item to; showing an understanding of contextual factors that impact appeal.

Curriculum codes, links and descriptions

Australian Curriculum

NSW Syllabus

VIC Curriculum

NSW Syllabus Outcomes Stage 2

[EN2-RECOM-01](#) reads and comprehends texts for wide purposes using knowledge of text structures and language, and by monitoring comprehension

[EN2-UARL-01](#) identifies and describes how ideas are represented in literature and strategically uses similar representations when creating texts

[EN2-OLC-01](#) communicates with familiar audiences for social and learning purposes, by interacting, understanding and presenting

[EN2-REFLU-01](#) sustains independent reading with accuracy, automaticity, rate and prosody suited to purpose, audience and meaning

[EN2-VOCAB-01](#) builds knowledge and use of Tier 1, Tier 2 and Tier 3 vocabulary through interacting, wide reading and writing, and by defining and analysing words

[EN2-SPELL-01](#) selects, applies and describes appropriate phonological, orthographic and morphological generalisations and strategies when spelling in a range of contexts

[EN2-CWT-01](#) plans, creates and revises written texts for imaginative purposes, using text features, sentence-level grammar, punctuation and word-level language for a target audience

EN2-CWT-02 plans, creates and revises written texts for informative purposes, using text features, sentence-level grammar, punctuation and word-level language for a target audience

Learning intention: Background knowledge is needed to understand context

Exploration

Before reading the text support students to research [penguins](#) and Antarctica. Find out the features of the environment, penguin habitat, other animal life, penguin predators, penguin appearance and characteristics to consider how they keep warm.

Key questions:

- What are the unique environmental features of Antarctica?
- How do these environmental features create a suitable habitat for penguins?
- What other animals live in Antarctica?
- What predators do penguins have?
- What physical and behavioural adaptations do penguins have to keep warm?
- What problems might the characters in the story be face with?

Response

Create food web diagrams and highlight the relationships between penguins, seals, walrus and killer whales.

Guiding questions:

- How do animals rely on other living things in their habitat for survival?
- What might be the impact on the food chain if numbers of one of the living things was reduced?
- What man-made or natural factors may cause a reduction in the numbers of living things in Antarctica?

Evidence of learning

Students:

- *identify the unique habitat features of Antarctica*
- *describe the interrelationship of living things within a habitat*
- *use background knowledge about the text setting to make predictions*

Learning intention: Narratives can share similar themes or messages

Exploration

Explore a range of books that touch on the themes of belonging, individuality, or include hats or other fashion accessories. For example, *The Hueys in The new jumper* by Oliver Jeffers; *I want my hat back*, *This is not my hat* and *We found a hat* by Jon Klassen; *Fashionista* by Maxine Beneba Clarke.

Key questions:

- How does the main character in each book 'fit in' or 'stand out'?
- How do the characters use fashion choices to show their individuality?
- What message do you think the authors of these texts are trying to convey?

Response

Use the literature as a launch pad for a class discussion about the themes of belonging and individuality.

Guiding questions:

- How do people conform with others to gain a sense of belonging to a group?
- How do people celebrate and show individuality?
- How can we use clothing or fashion as self-expression?

Evidence of learning

Students:

- *describe similarities between character experiences in different texts*
- *identify the message of similar texts*
- *describe the strategies that people use to fit in or stand out*

Learning intention: Narratives can help us to understand our own and other's point of view

Exploration

Talk about the concept of an idea and discuss the difference between a good idea and a bad idea. Compare the responses of the penguins and of the seals to Frank's hat designs. Introduce the concept of point of view.

Key questions:

- How did the responses of the penguins and the seals make Frank feel?
- How do we feel if someone says our ideas are good versus bad?

Response

Invite students to make personal connections to the concept of point of view.

Guiding questions:

- Do good ideas seem good to everyone?
- How can different people's point of view mean that some consider an idea good while other might consider it to be a bad idea?
- Can you think of a time when someone has told you that your idea is bad? Or good? How did it make you feel?

Evidence of learning

Students:

- describe the connection between personal experience and point of view
- make connections between their own experience and that of a character in a text

Learning intention: Dialogue shows the point of view of different characters

Exploration

Examine the dialogue in the text and the way it characterises Frank as bold and interested in new ideas while the other penguins are nervous and wary of anything new. Notice the different vocabulary included in Frank's speech versus Neville's on pg. 9, for example. *"Oh," said Neville, "Is it dangerous?" "No, it is perfectly safe."*

Key questions:

- How is the punctuation and sentence structure of dialogue on p. 9 & 10 the same and different to that in the speech bubble on p.13?
- How do questions and statements demonstrate different levels of authority or expertise?

Response

Jointly rewrite the speech in bubbles on p. 29 & 30 as quoted sentences using appropriate punctuation.

Guiding questions:

- What additional symbols and words are needed to indicate direct speech within a text?
- Why do authors and illustrators show direct speech in speech bubbles? Why do they embed it within the text?

Evidence of learning

Students:

- use punctuation conventions to show direct speech
- make inferences about character feelings based on what they say

Learning intention: The way that written text is presented guides our expression and phrasing

Exploration

Model reading the text on p.8, varying pace, volume and pitch according to the punctuation and font clues.

Key questions:

- What do ellipses (...) indicate to the reader?
- Why is 'anything' written in italics?
- Why is 'very' written in capital letters?

Response

Allow students opportunities to practise reading parts of the text aloud using the font (italics and capitalisation) as well as the speech verbs in the dialogue to indicate how to phrase and expressively read the text.

Guiding questions:

- What variations in font or punctuation do you notice in this section of the text?
- How can you vary your pace, volume or pitch to match the author's intent?
- How can you use bounded dialogue to guide your expression when reading aloud?

Evidence of learning

Students:

- identify the variations in font and punctuation that authors use for effect
- use written text clues to guide oral expression

Learning intention: Noun groups (including adjectival groups and phrases) are used to create a vivid picture in the reader's mind

Exploration

Begin a discussion about the way the setting is illustrated. Draw students' attention to the noun groups with **pre** and **post modifiers** that Sean E Avery has used to describe the setting, e.g. *cold and colourless world, black rocks, white snow, black rocks covered in white snow, winter white world, icy ocean depths.*

Key questions:

- What do you notice about the scenery where the penguins live?
- How could you describe the setting of the book?

Response

Jointly construct further adjectival phrases and clauses to add further description to aspects of the scenery or to describe the characters.

Guiding questions:

- What are the words that help to create an image in the reader's mind?
- What words could you substitute to change the meaning?
- How do these words serve a similar function within the text (to describe the noun)?

Evidence of learning

Students:

- *identify noun groups within a sentence*
- *describe the function of noun groups*
- *substitute words to change the visualised meaning*

Learning intention: Words can be used to show different levels of emotions

Exploration

Create mind maps to brainstorm words associated with feelings using some examples from the text as a starting point e.g., *disappointed, trust, terrified, nervous, dangerous, perfectly safe, reassured, reassurance, surprised*.

Key questions:

- How can we extend the list of words with synonyms and antonyms?
- How can we use these words to show different levels and strengths of emotion?

Response

Choose one of the words and their associated synonyms and antonyms. Create a word cline to order them according to the strength of the emotion that they convey.

Guiding questions:

- When have you experienced one or more of these emotions?
- What was the situation that triggered the emotion?

Evidence of learning

Students:

- *explain the way that language can be used to show variation in emotion*
- *order vocabulary according to meaning*
- *make personal connections to the emotions of the characters in the text*

Learning intention: Illustrators position characters to show emotion and connect with the viewer

Exploration

Closely view illustrations to notice the use of offer and demand used to engage the viewer with Frank's emotions and to align them with this character. Notice the demand on the title page, p. 5 and p. 20.

Key questions:

- How do close up pictures engage the reader with the character?
- What is the direction of Frank's gaze on pages 5 and 20 (demand)? How does it make you feel towards Frank?
- Compare with the image of Frank and the walrus on p. 4 when they are looking at each other (offer). How does it make you feel towards Frank?
- Why do you think the illustrator has shown Frank in this way?

Response

Conduct a guided drawing activity to experiment with how to draw Frank or other characters through both offer and demand. Demonstrate how to draw the pupil in the middle of the eye to create a demand, while drawing it towards to top, bottom or side of the eye circle creates offers.

Guiding questions:

- How can you experiment with the placement of features such as eyelids and eyebrows to create emotions?

Evidence of learning

Students:

- *describe the impact of visual layout on the reader*
- *differentiate between illustrations that show offer and demand*
- *draw characters that show different emotions*

Learning intention: Illustrations can foreshadow complications in a narrative

Exploration

Highlight the killer whale character. Explain the literary technique of foreshadowing and explain how the killer whale eating the penguin who tried on the red hat on p. 11 was foreshadowed on p. 6 & 8.

Key questions:

- Why do you think the killer whale was shown on p. 6 & 8?
- How does the illustrator show that the killer whale is getting closer?
- Is Frank's red hat the reason for Neville being eaten?

Response

Later in the book on p. 28 Avery creates a sense of foreboding by showing the killer whale in the distance. Invite students to create a comic strip to tell a story that focusses on this subplot of *Frank's red hat*.

Guiding questions:

- What do you predict might happen? What might the killer whale do next?
- How do previous events in the text impact our predictions?

Evidence of learning

Students:

- *describe the impact of foreshadowing on the plot of a story*
- *make predictions based on previous events in the text*

Learning intention: Spelling patterns helps us to decode and encode words

Exploration

Use the words from the earlier activity (e.g., *disappointed, trust, terrified, nervous, dangerous, perfectly safe, reassured, reassurance, surprised*) to investigate the phoneme-grapheme patterns such as *re, ur, ous* and double letters such as *ss, rr, pp*.

Key questions:

- What do you notice about the letter patterns in each of the words?
- What sound do the letter patterns make?
- Can you identify the base?
- Does the word have any affixes?

Response

Hunt through the picture book for examples and brainstorm further words that demonstrate these spelling patterns.

Guiding questions:

- Are there any common patterns?
- What other words have similar spelling patterns? Do they sound the same or different?
- Can you add any affixes to the words to create word families? How does the spelling change?

Evidence of learning

Students:

- *blend letters to read phonemes*
- *identify similar phone-grapheme patterns*
- *identify base and affixes*
- *use base and affixes to create word families*

Learning intention: Language can be used to express opinions and feelings

Exploration

Use [teacher in role](#) to model exploring different points of view on Frank's ideas while considering how language is used to follow social conventions and establish relationships.

Key questions:

- What words are used to describe feelings and reactions?
- How can we make the words stronger or more precise?

Response

In small groups, ask students to role play the first few pages of the book and think about the language they can use to describe the characters' feelings.

Guiding questions:

- Walrus – how do you feel about having its tooth used as a fishing spear and a snowman's nose?
- Penguins – how do Frank's actions make you feel?
- Frank – how do you feel about the reactions to your ideas?

Evidence of learning

Students:

- *make inferences about characters' feelings*
- *use language that describes emotional responses*

Learning intention: Dialogue in narratives is presented in an agreed way. Dialogue shows the character's point of view

Exploration

Support students to use role play to recreate a scene that imagines what the penguins are saying or thinking after they have separated themselves from Frank, on the iceberg on p. 14.

Key questions:

- What might the penguins be saying to each other?
- What might Frank be saying in his mind?

Response

Convert the role play into written dialogue, referring to the punctuation conventions of the jointly constructed dialogue from the previous Dialogue and characterisation activity. Add adverbials to the speech verbs, e.g. 'whispered nervously', drawing from the previous Vocabulary activity.

Guiding questions:

- What words are used to describe feelings and reactions?
- How can we make the words stronger or more precise?
- What additional symbols and words are needed to indicate direct speech within a text?

Evidence of learning

Students:

- *make inferences about characters' feelings*
- *use language that describes emotional responses*
- *use punctuation conventions to show direct speech*

Learning intention: The distance that an image is presented from impacts connection with the viewer

Exploration

Observe and discuss the distance and angles from which the illustrations are shown. Notice the zooming in and out that shows the penguins from different distances and allows the viewer to see different types of detail of the characters and the setting.

Key questions:

- How much information can be obtained from a long shot image? What can't be seen?
- How much additional detail can be seen in a close up image? How does this detail help to create meaning?

Response

Encourage students to have a go at using similar visual choices to compose an image, focussing on the seal or the killer whale shown through a close up. Experiment with showing the character

through offer and demand, revisiting the Point of View activity.

Guiding questions:

- How do long shot or close up, offer or demand images elicit different emotional responses from the viewer?
- How can we use different visual distances to connect with the viewer in different ways?

Evidence of learning

Students:

- *describe the impact of visual distance on meaning*
- *create an image that uses distance for impact*

Learning intention: People use strategies to cope with emotions

Exploration

Compare Frank's 'masterpiece' to the Archibald portrait of Cal Wilson, [*Clown Jewels*](#). Read about Cal's Covid lockdown hobby of making headbands that is showcased in the portrait. Jointly construct an explanation of Cal's coping mechanism of creating headbands [sensitivity note: since the original creation of this teaching unit Cal Wilson has passed away].

Key questions:

- How is Frank's 'masterpiece' similar in appearance to the image of Cal Wilson? How are they different?
- What other ways do people cope with 'big feelings' of nervousness, worry, anxiety, etc?

Response

Allow students to use this as a model for writing about Frank's coping mechanism of knitting, or others students know about, such as reading fiction, using worry dolls etc. See Anthony Browne's [*Silly Billy*](#) as another example.

Guiding questions:

- How did knitting help Frank cope with his feelings of being different?
- What hobbies or activities do students enjoy? How do they feel when they participate in them?
- What strategies do students use to cope with 'big feelings'?

Evidence of learning

Students:

- *describe emotional responses to situations*
- *explain strategies for coping with emotions*
